

## Innovo Cloud Managed Services

### Our Managed Services Help Enterprises Save Up to 60% on IT

Innovo's next-generation approach to managed services helps enterprises to achieve consistent process adjustments & optimisation in all business aspects. We help you enhance the agility of your IT system and avoid needless loss of resources and time. Our process led transformation approach will make it easy for you to achieve lasting success for your business.

Our managed services will help you simplify & streamline your processes and free up resources for strategic business initiatives. We will help you design, develop, and manage exhaustive cloud solutions that address key components to fit well with your requirements and budgets.

### What we offer:

**Infrastructure Management** - We can help you to successfully shift to the cloud environment and manage systems proactively through defined service levels.

**Service Management** - Our professionals work round the clock for managing incidents and reviewing alerts to keep the service management needle moving.

**Application Management** - We provide consistent support for your development, operations, and maintenance activities related to critical business applications.

### Security, Risk and Compliance Management – Cloudlytics

Cloudlytics is our AWS Management Platform, designed to simplify task automation, provide actionable insights, and give a thorough view of an organisation's AWS cloud environment. With Cloudlytics, our clients can realise accelerated deployment of security policies, processes, and configurations. Your search for comprehensive threat protection and compliance assurance solution ends with Cloudlytics.
